

## Screw Conveyor

The Haarslev Screw Conveyor is especially designed for the transportation of material from one process step to the next.

The screw diameter is as standard Ø230, Ø300, Ø400, Ø500, and Ø600 mm.

The screw conveyor is used in the following industries:

- Rendering
- Slaughtering
- Pet food
- Fish meal

Besides the actual transportation, the screw conveyor can also accomplish the following tasks:

- Pre-heating
- Cooling by means of air or water
- Straining of fats or water

The screw conveyor can be manufactured in stainless steel, mild steel, or in a combination of the two, depending on the type of material to be transported.

### **Haarslev Industries**

Haarslev industries is an innovative and dynamic company, one of the world's leading companies within handling and processing of by-products from food-related industries.

*We reserve the right to alter the specifications at any time without prior notice.*
